THE BRITISH COLUMBIAN.

NO. 66. VOL. 8.] NEW WESTMINSTER, WEDNESDAY SEPTEMBER 30, 1868. [PRICE 6d. or 12 cts.

THIS JOURNAL is the oldest newspaper published in British Columbia; is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for the Colony.

DAVIS SPENCER, in Victoria, and J. P. FISHER, in San Francisco, are our authorized Agents.

THIS PAPER may be read gratuitously in London at the Central Establishment of "HOLLOWAY'S PILLS AND OINTMENT," 244, Strand, where advertisements and subscriptions for the same are received.

The British Columbian.

WEDNESDAY, SEPTEMBER 30, 1868.

VICTORIA AND TENNYSON.

Queen Victoria is an ardent admirer of Tennyson's poems. Shortly after the appearance of his "Enoch Arden" she heard that Tennyson's enemies charged that poem with being immoral and a glorification of concubinage. After inviting the opinion of two eminent persons, both of whom condemned the poem, the Queen determined to speak with the poet himself. Extending her drive along the sea shore beyond its usual length, for Tennyson, too, lives upon the Isle of Wight, she proceeded to execute her purpose. The interview is thus described by the *Gartenlaube*, a paper published in Berlin:—

The Queen was accompanied by two of her daughters. When she perceived Tennyson's form in his garden—his long hair and full beard caused her to recognize him at a glance—she intrusted her sketch book and the metal box in which she gathered flowers and plants for her herbarium to the princesses, and walked alone to the low garden gate, whither Tennyson had already hastened to meet her.

She did not want to enter his house, but, walking with him along the shore, she explained to him what disquieted her in regard to his poem, on the beauties of which she dwelt with that refined appreciation which is said to be peculiar to her. The two thus walked along the high western shore—at their feet the blue sea, upon which many white sails, like scattered blackthorn blossoms, were scudding, while the neighboring hedges resounded with the merry chirping of the robin redbreast and the wren, and innumerable sea gulls screeching, circled round the steep cliffs.

At last a bundle of fagots obstructing the pathway arrested their progress. A light haired, blue eyed girl of ten or twelve years was standing beside it, not a little frightened at not having shouldered her burden yet; for like all islanders, she knew the Queen, and to have obstructed the path to the graveyard, before the entrance of which lay her fagots, seemed the more unfortunate to her as the high road, owing to its muddy condition on that day, could not be used by pedestrians.

Tennyson assisted the little girl in binding and shouldering her bundle of fagots; the Queen asked her name—it was Anna—and gave her a piece of money, and the happy girl went slowly on her way.

"A sweet faced child," said the Queen, gazing after her, as she was tottering along with her heavy burden; and then, as if to lead the poet back to the subject of their previous conversation, she added musingly: "It is about thus that I think your Anna Lee must have looked—I mean at the time when she was the playmate of Enoch and Philip, and, to reconcile them in their boyish quarrels promised them both to become their little wife."

"A painter might really use that little girl as a model for that purpose, your Majesty," replied Tennyson.

He had stood still, in order to allow the Queen to pass a puddle of rain water, and the august lady, calling to mind a beautiful passage in Tennyson's Idyls of the King, on seeing the ripple on the surface of the puddle, recited the lines

"But that inscription is Enoch, is it not?" asked the Queen, looking in passing at the epitaph on one of the moss-grown tombstones, and then answering herself: "Sure enough, it is Enoch! It is strange how important something which we formerly regarded with utter indifference suddenly appears to us! Thus, for instance, this name, which I have so often read on these stones among so many others from the Old Testament during my excursions on the island."

And then looking around, she added: "It is a pity that your Philip had not likewise a namesake here; people would not be long in believing that the two heroes of your poem are buried here, and they would, maybe, lay the scene of your whole poem in the shade of these walnut trees. But, tell me, Mr. Tennyson, what have you to reply to all those objections which I mentioned to you before?"

"Very little, your Majesty."

"What?"

"I should be sorry, your Majesty, if the little girl yonder had to bear the stain of illegitimate descent."

"What little girl?"

"The little girl disappearing just now behind the hawthorn hedge, your Majesty; I mean the child carrying the bundle of fagots."

"And what has that little girl to do with your poem?"

"A great deal, for if the Bishop of N. had had his way, little Anna, yonder, would be considered a child born in illicit wedlock."

The Queen had stood still.

"You do not mean to say, Mr. Tennyson," she replied, "that on our little island here an event such as you related in your Enoch Arden has really happened?"

And as Tennyson was silent for a moment, she continued—"Oh, I know you do not like to answer such questions. But tell me now, did Enoch Arden live here? And is he perhaps even buried underneath that tombstone?"

"Your Majesty," said Tennyson,—"There occur among the lowly and poor many traits of heroism for which historians might envy the quiet observer of the people. Happy he who can contemplate and comprehend such traits with an unbiassed mind; happy he who is enabled to relate them in his poems without spoiling their simple originality too much; happy above all is he of whom poets can tell such traits. His memory disseminates heavenly seed."

The Queen had walked across the lawn to the tombstone and laid her hand on its moss-grown edge. She stood there a long time in silence, her eyes fixed on the spot where Enoch had found his last resting place. At length she drew herself up, and turning to go home, she said—"God bless him! He did right after all!"

SCENE IN A CHURCH.—During divine service on Sunday last, in the parish church of Crathie, a quantity of fuses accidentally ignited in a gentleman's pocket, causing no small amount of sensation among the congregation, and particularly so as it happened in rather close proximity to royalty. However, as the individual was a native of Crathie, and one whose loyalty was indisputable, none of the authorities took any cognizance of the untoward affair; but, had the same occurred with a stranger, it might probably have terminated otherwise. —*Edinburgh Courant.*

WHOLESALE POISONING.—Upwards of one hundred guests at various hotels in Owensboro, Kentucky, were recently poisoned by drinking milk at tea.

S.T-1860-X.

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that change in living from Food to Drink, Water to Drugs, etc., cannot upset the machinery of the Body and breed disease."

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people, for every complaint of a dyspeptic or debilitated nature. The secret of their wonderful invigorating influence is that they create pure blood, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure, so all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic than to defeat and weaken and deaden her curative processes with poisonous drugs and fiery mixtures which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life."
REV. W. H. MADDREN, Madrid, N. Y."

"* * * Then will send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend, ASA CUMMIS, Phil., Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CARRON, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.

The public have now assured that in no case will the perfectly pure stimulant of the PLANTATION BITTERS be imparted to you.

Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell PLANTATION BITTERS *in bulk or by the gallon, is a swindler and imposter. Beware of refilled bottles. See that our Private Stamp is* UNMUTILATED *over every cork.*

Sold by all Druggists, Grocers and Dealers throughout the world.

P. H. Drake & Co., NEW YORK, SOLE PROPRIETORS.
Redington & Co., 416 and 418 Front St. San Francisco,
Agents for California and Nevada.

FLEAS.

LYON'S MACKEREL INSECT POWDER is sure and certain death to everything of the insect species—Fleas, Roaches, Mosquitos, Ants, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or taken internally with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—directions accompany each box. Beware of counterfeits.

The genuine has the signature of E. LYON, and the name of Messrs. Burnes & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF & WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,
SPRAINS, FRESH CUTS OR WOUNDS,
SWELLINGS,

Or any other complaints requiring external application.

FOR HORSES,

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engravings, bearing the signature of S. W. Westbrook, Chemist, and the PRIVATE U. S. STAMP of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Sold by all Druggists and Stores in every town and mining camp on the Pacific coast.

WEDNESDAY, SEPTEMBER 30, 1868.

FIRE AND ITS PREVENTION.

Fire, it has been said, is a good servant but a very bad master. Hence the importance of keeping it in subjection. To this end organized effort and proper appliances are essential. Even the "Hyacks" without their "Fire King" would avail but little in mastering a fire. We need not go beyond our own town in search of an illustration of how much can be done by an efficient organization, having the material requisites at command. Would it be too much to say that this town owes its immunity from conflagration to the Fire Department? In more than one instance it would, to all human appearance, have been swept away by fire had it not been for the timely and effective services of the Fre Department. In two instances buildings forming portions of wooden blocks were totally consumed, while those on either side were scarcely singed! Undoubtedly we owe much also to preventitive measures. The existence of a good Municipal Fire Prevention Bye-Law and the faithful enforcement of its provisions have had their due share in preserving the town. Has not immunity from fire for a lengthened period caused the authorities to slacken in their diligence in the matter of inspecting stove-pipes and enforcing the provisions of the law? In all good feeling we put it to those upon whom the community rely, whether such is not the case. But the object of the present article is not so much to deal with New Westminster and the causes which have contributed to its preservation as to admonish some of the larger towns in the interior to adopt precautionary measures. This Colony has just been visited by a fire which, while it has, we fear, involved some in utter ruin, has cast a gloom over the entire country, and inflicted more or less injury upon every interest. Writing very much in the dark, in so far as the circumstances under which the great Barkerville fire originated, it is highly probable that, with proper attention to stoves, pipes, flues, &c., the fire would never have occurred; and it is safe to say that with proper organization and appliances, having occurred, its ravages might have been greatly circumscribed. Barkerville enjoys advantages possessed by few towns, in so far as a supply of water is concerned. With the greatest facilities for constructing a reservoir, with aqueduct and hydrants, so as to give sufficient force to throw a powerful stream over the highest building, there would be no need for a fire engine at all. All that would be necessary would be sufficient hose to cover the town. With these and a good Hook and Ladder Company, provided with suitable implements, Barkerville would be placed in a better position to subdue a fire than any other town in the Colony! We hear that the noble-hearted fellows who were burned out the other day are now busily engaged in rebuilding the town! It is to be feared that in the hurry of rebuilding, with winter so near, the important subject of increasing the width of Main Street will be overlooked. So very narrow a street not only militates against the appearance of the town, but it greatly lessens the chances of checking the progress of fire. We may be allowed to suggest to the good people of Barkerville the importance of adopting some such precautionary measures as those we have been briefly alluding to, with a view to averting another calamity. The construction of proper and efficient water-works and the providing of the necessary hose and carts, &c., would doubtless involve no inconsiderable expenditure. But we submit whether it would not be true wisdom and economy to undertake the work. Nor do we doubt for a moment that a liberal grant would be made in aid of so necessary and important a movement by the Legislature. Grants have been made in aid of the Fire Departments both here and at Victoria, and no one will say that the people of Barkerville would not have even a stronger claim, provided they had a properly organized Fire Department. What we have here said of Barkerville may, to a great extent, apply with equal force to Yale. It is, indeed, matter of surprise that the people of Yale, with their undoubted enterprise and liberality, and with the severe warning they received by the big fire which occurred in 1863, are found to-day destitute of anything in the form either of a Fire Department, or of the most ordinary appliances, for extinguishing fire! It is still more surprising that a meeting called last Saturday sennight, for the purpose of considering the desirability of taking steps for forming some such organization, proved a failure! We deeply regret this apathy. There is no reason why a fire in Yale should not be as destructive as was the late fire in Barkerville. Indeed it is difficult to understand how, with a strong wind blowing up or down, as is generally the case, any part of Yale could be saved in the event of a fire breaking out, that is to say in the absence of any organization. In Yale, as in Barkerville, the greatest facilities exist for constructing such water-works as would altogether obviate the necessity for a fire engine. The entire cost of construction would be a mere trifle when compared with the amount of property risked; and there can be no doubt that local effort would be liberally supplemented by a legislative grant. We sincerely hope to see an earnest movement made both at Yale and Barkerville, having for its object the necessary precautions for preventing fire, and the necessary organization and appliances for extinguishing fire should such unhappily occur. The Colony can ill afford a repetition of the Barkerville disaster. Communities can still less afford it.

New countries have wants and habits peculiar to themselves. In our widely extended and sparsely settled territory, medicines ready prepared are more employed, and are in fact a greater necessity than in the old countries. Dr. Ayer's preparations have given the public greater confidence in this class of remedies than has ever been felt before. Physicians instead of discarding them, really favor the use of such ready at hand antidotes for disease, when they can be depended on. And we wish our readers to know that in publishing J. C. Ayer & Co.'s advertisement, or any others of like reliable character, we think we are furnishing them as useful information as any with which we can fill our columns.—Louisville *Courier*.

SMALL-POX.—We hear that a case of small-pox exists in the Indian encampment below the town. The Health Officers should adopt prompt measures before it spreads amongst the Indians, whose filthy habits render them so liable to contract such diseases. People would do well to look to the vaccination of their children.

FROM YALE.—The str. Onward, Capt. Irving, returned from Yale on Saturday, having accomplished the trip with considerable difficulty, owing to the fog and smoke. She sailed again yesterday with a full freight and a considerable number of passengers.

EASTERN MAIL.—The Postmaster General announces that the Eastern mail will close at noon to-day and be dispatched to Victoria by the Leviathan.

WEDNESDAY, SEPTEMBER 30, 1868.

ENGLISH MAIL SUMMARY.

Our English files are to the 9th August. Mr. Jefferson Davis landed in Liverpool on the 4th August. The fact of his being a passenger on board the Allan steamer Austrian, Captain Wylie, was known to a few of those who sympathised most actively in the Southern cause, and preparations were made by them to meet him. The news that Mr. Davis was on board had spread with great rapidity, and by the time the Austrian got alongside the quay-wall a considerable crowd had assembled, and they cheered the ex-President as he landed and took his seat in Mr. Medley's carriage, as well as when the vehicle started. The *cortege* drove at once to the Adelphi Hotel. The Marquis of Downshire died on the 4th after a few hours' illness. The *Post* states that it has been finally decided that the Marquis of Abercorn shall be elevated in the peerage of Ireland, under the titles of Duke of Abercorn and Marquis of Hamilton. The Marquisate will be of Strabane, in Ireland, and will not therefore interfere with the Duke of Hamilton's Marquisate of Hamilton, in Scotland. The notion of conferring the dukedom of Ulster upon the Lord-Lieutenant has been abandoned, in consequence of the earldom of Ulster being one of the titles of the Duke of Edinburgh. The *Lancet* says:—"Her Majesty has undertaken her journey to Switzerland, where she intends to stay for about a month, on the recommendation of Sir W. Jenner. We stated some months since that the Queen had been subject to fainting fits, accompanied by distressing attacks of sickness. Though these, to a great extent, have abated, she has felt very much the hot weather of late prevalent; and this, with the unusual fatigue she has recently undergone, have produced a degree of weakness which the proposed change it is expected, will remove. On her return from Switzerland, the Queen will spend some time at Balmoral." It was rumored that Captain Stanley, second son of the Earl of Derby, is to be made a Lord of the Admiralty. A very strange account has reached us from Madagascar (says the *Calcutta Englishman*) of the burial of the late Queen. The body was swathed in nearly 500 silk lambas, in the folds of which 20 gold watches, 100 gold chains rings, brooches, bracelets and other jewellery, together with 500 gold coins were rolled. All the presents she had received from the Queen and the Emperor of the French were buried with her, and all her furniture and personal effects. Mr. R. W. Rawson, C. B., at present Governor of the Bahamas, West Indies, has been appointed to the Governorship-in-Chief of the Windward Islands. Mr. John Scott, formerly Lieutenant-Governor of Natal, will succeed Mr. Rawson at the Bahamas. Sir B. C. Pine has been appointed Governor of Western Australia. From nearly all parts of the Continent comes the story of forests on fire, the ravages in Russia appear to be most extensive, and the flames were making progress in the direction of St. Petersburg. The *Times* gives an account of the opening of the Wesleyan Methodist Conference, at Liverpool on the 30th July. After filling up the "Legal Hundred," the election of President took place with the following result:—Rev. Dr. Jobson, 83; Rev. J. Farrar, 91; Rev. S. R. Hall, 144. President Hall, in his inaugural address, glanced at the external relations of Methodism. He hoped Methodists would keep to their *via media*. Individually they had their political convictions, but they were not disposed to take political action in their corporate capacity. Any union with the Church of England he regarded as out of the question. Methodism was the partizan of no State Church. He spoke strongly against the Tractarianism and Rationalism of some sections of the Church of England. Mr. Hall's address was listened to with great interest by the Conference. About 500 Ministers were present. In making out the returns of the cost of the recent Abyssinian Expedition, it is found there will be a considerable surplus of the sum granted by Parliament. The list of rewards for service in Abyssinia will it is said, include the promotion of Sir Charles Staveley to the rank of Major General. Sir Charles stands thirty-sixth on the list of colonels, and, under ordinary circumstances, would not obtain this step for about two years.

THE EXHIBITION.—Owing to the density of the fog, and fearing that the farmers from the more distant portions of the District would not be able to reach the town in time, the Committee were induced to postpone the opening of the Exhibition for one day. It will, therefore, be held to-day, instead of on the 29th as previously announced. Articles intended for exhibition will be received up till a quarter to nine o'clock this morning. The Judges will occupy the rooms till 11 o'clock, when the Exhibition will be formally opened and the public admitted by tickets (25cts for adults and 12½ cts. for children). His Excellency the Governor has graciously consented to open the Exhibition. The prizes will be awarded at 8 o'clock in the evening. Articles were coming in freely last evening, and the Exhibition promises to be fair under all the circumstances.

AT LAST!—It affords us peculiar gratification, after all the long weary months of anxious waiting, to be able to state that the Assistant Surveyor General has gone up the river for the purpose of surveying and adjusting the Indian Reserves on the Lower Fraser and surveying the line of road from Pitt River to St. Mary's. It is anticipated that he will, at the same time, make a survey of the rocks known as "The Sisters," with a view to having one of them removed. We believe we are fully justified in saying that none of these three important works is undertaken with the goodwill of the Chief Commissioner—that, had that august functionary had his way of it, they would have got the gobye for another year at least. Well. It only remains for us to hope that Mr. Pearce will do the work efficiently and well and that he may not be interrupted by the Fall rains. He enjoys the reputation of being a thoroughly practical Engineer.

CANADA.—Our Canadian files are only two days later, and contain but little news of interest out here. Miss Mathieson, eldest daughter of Rev. Dr. Mathieson, of Montreal, was drowned at Cacouna, while out bathing. Two young Londoners, Mr. D. McIntosh, and Mr. Henry Boullie, were killed on the Great Western railroad, on 27th July. A horse owned by Mr. S. James, of Hamilton, won the $1400 purse at the Buffalo races, on 30th July. Fog and smoke prevailed throughout the country; the St. Lawrence steamers were obliged to betake themselves to the canals going down. Large quantities of lumber were being shipped from Montreal direct to South American markets.

THE CRANBERRY SEASON appears to be on the wane. They are not coming in as briskly as they did a few days ago, at all events. One firm alone Messrs. F. Kaye & Co., in two weeks put up over 300 barrels. The whole take must have been large, as there were four others in the trade.

PRISON RETURNS.—We are indebted to C. J. Prichard, Esq., Governor of the Jail, for the following abstract of Prison Return for the month of August, 1868:—In Jail on the 1st of the month, 21; received during the month, 11; discharged during the month, 9; in Jail on the 31st of the month, 33.

ANOTHER SHIP.—The Hudson Bay Co's ship Princess Royal was towed into the Inlet on Sunday, and is taking in a cargo of lumber at Messrs. Moody & Co's Mills, for Valparaiso.

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, arrived from Victoria, *via* the Inlet, on Monday, having towed in the ship Princess Royal. She sailed again yesterday.

PRODIGIOUS!—In England the poor-rates have risen in thirty years from four and a half to eleven millions sterling!

ERRATUM.—The name of Hon. F. J. Barnard was included by mistake in the list forming the Executive Committee appointed by the Convention, as published in our last edition.

MAIL TO KOOTENAY.—Mr. John Johnston, the energetic Kootenay Mail carrier, will start out with a Government mail by the next up-river steamer.

MAMMOTH MELONS.—We have to thank Messrs. McClearn & Franklin for a truly mammoth water melon, of most delicious flavor. They have plenty more.

GOING DOWN.—We understand His Excellency the Governor will leave for Victoria shortly after noon to-day by the Leviathan.

TELEGRAPHIC SUMMARY.

European news is to the 22d, and is for the most part devoted to Spanish affairs. The news is very much mixed: Generals Prim and Doceda are reported at the head of the revolutionists, marching on the Capital. Prime Minister Bravo had fled and General Conchas is at the head of the Queen's troops. Martial law had been proclaimed throughout Spain. According to latest accounts the revolution was gaining ground. Cadiz was occupied by rebels and it was rumored that the Spanish fleet had opened fire on the city. The revolutionists have formed a national provisional Government at Seville, the head-quarters of the rebellion, and Espato is said to have given his sanction to the movement. The revolutionists demand the abdication of Queen Isabella in favor of her son, the infant Alphonse, and the calling of an extraordinary session of the national Cortez to settle the affairs of the country. The Queen was said to be at St. Sebastian or on the road to Madrid. Despatches from Naples report that insurrections have broken out in Calabria and Cicily in favor of the Italian Republic. Paris journals had received telegrams confirming the report. The *Temps* fears that the Italians desire to overthrow the monarchy under Victor Emmanuel, and it is asserted that Francis XI., of Naples and Sicily, is the prime instigator of the movement, and that the rebels are merely acting under the pretence of Republicanism. It is stated that very prompt steps have been taken by the Italian Government to put down the new rising in the South. The report was current in Paris that the French Minister of War will immediately issue orders for the dismissal of 80,000 men from the army on furlough.

Eastern States news is to the 23d September, but is very meagre and unimportant. The largest political demonstration ever witnessed in the West is said to have taken place at Chicago on the night of the 23d. Fifteen thousand tanners of Chicago and neighboring counties walked in torch-light procession. A hundred thousand people were said to have turned out! Secretaries Wells and McCulloch have declared in favor of Seymour and Blair, while Secretary Seward has come out unequivocally for Grant and Colfax. A dispatch received at New York on the 23d, announced the completion of another section of the Union Pacific Railway, making 820 miles. Latest dispatches from Concord represent Ex-President Pierce as recovering.

THE CONVENTION LAY.

By M. U.

Six and twenty Delegates
At Yale in conclave met,
Into Canada's Dominion
This Colony to get.
They said, "We're here to represent
The people's real views,
And we'll make the Duke of Buckingham
Shiver in his shoes!
We want no 'bloated Civil List',
But men of real use;
And with 'kid gloves' and 'cricket'
We'll play the very deuce.
The world must be, indeed it must,
Come to a pretty state,
If 'servants' can their 'masters' rule
In '1 8 6 8.'
But we ain't agoin' to stand it,
So pack your traps and 'get'
Ye *cultus* Civil Listers,
For we're after you, you bet!
And bo! ye swells of Downing-street,
Lend us a list'ning ear,
(Your ears are long enough, we guess
To reach from there to here),
We only wish to whisper
A little word or so;
We want to go to Canada
And you'd best let us go.
We're sick of tape and sealing-wax,
We're sick of 'rat-skins', too,
We're sick of tyrants, and we're sick,
Sick unto death—of *you!*"
That's about the sum and substance,
The kernel, pith, and grit,
Of their lengthy resolutions,
But, can they make it fit?
The've the "Powers that be" to buck against;
The angry "Bull" to tame:
And who would wish on sugar-sticks
To rest his earthly fame?—
But, in spite of sugar-candy,
In spite of Bulls and blokes,
In spite of sneers and snarls and scoffs,
In spite of cowardly croaks,
We'll have CONFEDERATION!
'Tis the watch-word of th' age.
Hurrah! our history yet shall show
A fairer, brighter page.

ALL OVER

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburst, Feverish Lips, Bad Breath, Sallow Complexion, &c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for dyspepsia, Fevers, Weakness, Constipation, &c,

CASCARILLA BARK.—for Diarrhea, Colic, and diseases of the stomach and bowels.

DANDELION.—For inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, snake-root, &c.

S.T-1860-X.

Another wonderful ingredient, of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidences of effects meeting them on all sides, the success of Dr. DRAKE stands founded upon the rock of truth. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our log-cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe,

P. H. Drake & Co., New York,
Sole Proprietors.

Redington & Co., San Francisco. Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c. and all say it acts like magic. J. W. HEWITT,
Foreman for Amor'n, Wells. Fargo's & Harnden's Express

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment." ED. BERRY.
Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. stamp of DEMAS BARNES & Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores, @ 25 & 50cts. and $1.

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bedbugs, roaches, &c., that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This Exeder is their natural death. It should be in every cupboard.

JOHN L. ROME, Esq., Superintendent of the New York City Hospital, says: * * * "It is the only SURE article we have ever used."

NEW YORK HOTEL PROPIETORS say: "We have used T. LYON'S MAGNETIC POWDER for exterminating insects and vermin, with entire satisfaction.

COLEMAN & STETSON, Astor House.
S. T. COZZENS, American Hotel.
ACKER & TREADWELL, St. Nicholas Hotel.
S. LELAND & CO.; Metropolitan Hotel."

Testimony of this character might be added to any length. Wherever it is used it advertises itself.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have one other.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific Coast.

AYER'S MEDICINES.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, slow living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children unto the third and fourth generation; indeed, it seems to be the rod of Him who says: "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia & Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Ayer's SARSAPARILLA.

THE WORLD'S GREAT REMEDY

For Scrofula and Scrofulous Diseases.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass.

Sold by all Druggists everywhere.

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Savia, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your Pills. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Moore, M. P. P., of Newcastle, C. W., and leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, and found it excellent, and for *purifying the blood* it has no equal. Pimples and Boil Eruptions in consequence of it."

Erysipelas, Pimples, Blotches, Pustules, Ulcers, Carbuncles, and Diseases of the Skin, have no place where this Sarsaparilla is used. Internal Ulcers and Tumors, which cannot be reached by the knife, have been completely cured by it. Many who have suffered from Scrofulous taints and poisons have found in it a safe and certain relief, when all other remedies and physicians had failed to do them any good. Running sores, which have defied the skill of the most eminent surgeons, have been healed by it. Organic diseases of the heart, which no other medicine can reach, have been cured by it. Female Complaints, arising from a scrofulous taint in the system, which undermine the health of so many of the sex, and make life a burden to them, are speedily relieved and permanently cured by it. Indeed, we might fill this paper with certificates of its virtues in the cure of the various diseases which it is competent to cure, but the space is too valuable, and the disposition to use it for such purposes too reprehensible. Its merits are known to all who have used it, and we have only to say to the afflicted that we are daily in receipt of the most unequivocal evidence that it is doing for others what it has done for thousands around us—relieving them of the most painful and dangerous diseases to which they are subject.

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Archer, Esq., the able editor of the Guardsman and Democrat, Pennsylvania.

"One only child, about three years of age, was attacked by phymbous on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded the eyes for some days. A skilful physician prescribed a solution of silver and other remedies, without any apparent effect. For fifteen days we attended his hands, lest with them he should tear open the festering and corrupt sores which covered the whole face. Hundred and even thousand dollar bills may be thrown by us before we will be induced to take from our child the healing influence of SARSAPARILLA, and applying the noxious potash lotion, as you did us. The sores began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any child. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Elliot, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The practice accredited to you for some of the most desperate cases have"

Wyatt A. J. Keach, M. D., a eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear SIR! I have found your SARSAPARILLA the most powerful remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mrs. Chas. R. Van Liew, of New Brunswick, N. J., had a dreadful ulcer on her leg, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved her, and a few bottles more invigorate and digesting thus, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness;

are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, the aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrell, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, almost every other disease which ingenuity is heir to, and the real cause of the trouble never suspected, and have doctored for all but the right one?

Diseases of this sort require a Director

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues from impurities. They have stood thousands year after year the first rank in the list of dyspepsia, dysentery, constipation, liver complaints, &c., a face which no other medicine can approach. Excessive weakness is speedily changed into a healthy and vigorous tone by their purifying, regulating, organic energy and all functions of the body are restored with vigor and regularity to every organ throughout the system, by the agency of these unfailing influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every critical period of the life of woman, youthful or aged, married or single, may be radically and quickly cured by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver on the right side, and you will soon perceive a change for the better in your digestion, appetite, strength, and energy. The improvement, though it may be gradual, will be certain.

DROPSY.

A few doses of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that they bring from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer requires a tendency of relief long before a complete or even considerable cure is effected; but it is indispensable to severity that the Ointment should be assiduously rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the livers; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be compelled to take to bed. Obstruction in all disorders of the Kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day, and the Pills taken in unison, will cure any complaints arising from these organs.

Piles, Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorder of the heart, or other vital organs. Particularly of solids, take six Pills nightly, some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints Incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels; a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil,
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	Tic Douloureux,
Colics,	Indigestion,	Tumours,
Consumption,	Inflammation,	Ulcers,
Debility,	Jaundice,	Venereal Affections,
Dropsy,	Liver Complaints,	Worms of all kinds,
Dysentery,	Lumbago,	Weakness from whatever cause,
Erysipelas,	Piles,	&c., &c.
	Rheumatism,	
	Retention of Urine,	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralising all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that those often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk-fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes and Sand-flies,	Fistulas,	Scurvy,
	Gout,	Sore-heads,
Coco-bay,	Glandular Swellings,	Tumors,
Chiego-foot,	Lumbago,	Ulcers,
Corns (soft),	Piles,	Wounds,
Cancers,	Rheumatism,	Yaws.
Chilblains,		

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world; at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

☞ There is a considerable saving by taking the larger sizes.

☞ Directions for the guidance of patients in every disorder are affixed to each Pot. dec11y
